EWM

The **EWM**ROCKET® is the new Rapid Deployment Solution (RDS) from prismat.

prismat guarantees:
- ◢ Rapid deployment
- ◢ Full cost control
- ◢ Close-to-standard solutions

Join us and set off your **EWM**ROCKET® in just 3 steps:

EWMLICENSEKIT® covers the SAP license package. Individually adapted in accordance with size, required standard and staff strength. The installation base for your warehouse!

EWMBASE® provides the process base that every warehouse requires: Begin with the processes of inbound and outbound, the processing of returned goods, replenishment and physical inventory.

EWMXXL® offers numerous solutions for all areas of process and function in the warehouse.

Make additional selection from our wide range of solution portfolio for different logistical requirements:

Batch Management, Cross Docking, Kitting, Labor Management, Management of hazardous materials, Material Flow System, Production Supply, Quality Management, Radio Frequency, Value Added Services, Yard Management and many other solutions.

All XXL solutions are available for individual booking.

**Make an appointment for the EWMROCKET® vertical take-off with prismat.
The countdown has started...**
